Accessibility Statement for libertygroupltd.co.uk

We incorporate website accessibility standards into the design and maintenance of our website to ensure accessibility for all people regardless of ability or method of access.

What we're doing about web accessibility: To help us make our website a positive place for everyone, we've been using the Web Content Accessibility Guidelines (WCAG) 2.0 from the World Wide Web Consortium (W3C). These guidelines explain how to make web content more accessible for people with disabilities, and user-friendly for everyone. The guidelines have three levels of accessibility (A, AA and AAA) and we've chosen Level AA as the target for our website.

What we currently do well:

- Browser can zoom in and the text automatically stays within the limits of the page
- Navigate the website using just a keyboard. Users can use the tab key to highlight links and enter to go to that link.
- Listen to most of the website using a screen reader from JAWS, NVDA, and Apple VoiceOver.
- Users can navigate forms with the tab key.
- There is no limit to how far you can magnify the pages; you can zoom in as far as the browser allows (500%).

Current Limitations:

- Colour, contrast levels and fonts cannot be changed.
- You cannot modify the line height or spacing of text.

Tell us how we're doing: We've worked hard on our website and towards achieving our goal of Level AA compliance. We monitor the website regularly to maintain this goal. We are, on a regular basis, seeking opportunities to bring all areas of the site up to the same level of overall web accessibility. If for any reason you cannot access any of the material on our website, please email Caz Place at caz@libertygroupltd.co.uk and we will work to resolve the problem as soon as possible.

Receiving Additional Help: Most popular browsers and plugins contain built-in accessibility tools and features. For more information, please visit the accessibility information pages for these tools:

- Google Accessibility for Chrome Browser
- Microsoft Accessibility for Internet Explorer Browser
- Accessibility Information for the Firefox Browser
- Accessibility Information for Adobe PDF Reader

Additional Information: If you'd like to receive additional information on the web accessibility guidelines, visit this website.
