Introduction

We believe this policy should be a working document that is fit for purpose, represents the college ethos, enables consistency and quality across the college.

We are aware that the General Data Protection Regulations (GDPR) has entirely replaced the previous Data Protection Act (DPA) making changes to many existing data protection rules and regulations that colleges, academies and other educational establishments adhered to under the DPA. The principal aim of the GDPR is to strengthen and unify the safety and security of all data held within an organisation.

We wish to comply with the Special Educational Needs and Disability Code of Practice: 0 to 25 Years, the Statutory Guidance for Organisations Who Work With and Support Children and Young People with Special Educational Needs and Disabilities and with sections 29, 34, 35, 66, 67, 68, 69 and 100 of the Children and Families Act 2014.

We have a duty to provide appropriate SEND provision for children and young people in order to meet their needs. It is also our duty to “make reasonable adjustments for disabled children and young people, to support medical conditions and to inform parents and young people if SEND provision is made for them.” We must ensure that under no circumstance will we directly or indirectly discriminate against, harass or victimise disabled children or young people.

We believe it is our responsibility to publish all details of the SEND provision that we have available in the SEND Information Report and to work with the local authority in compiling and reviewing the Local Offer.

We believe that... “Children have special educational needs if they have a learning difficulty, which calls for special educational provision to be made for them.

Children have a learning difficulty if they:

- Have a significantly greater difficulty in learning than the majority of children of the same age: or
- Have a disability which prevents or hinders them from making use of educational facilities of a kind generally provided for children of the same age in colleges within the area of the local education authority
- Are under compulsory college age and fall within the definition at (a) or (b) above or would do so if special educational provision was not made for them

Special educational provision is additional to, or otherwise different from, the educational provision made generally for children of their age in colleges maintained by the local authority, other than special colleges, in the area.” (Education Act 1996)

When organising additional support, it is very important that we provide learners with special/additional educational needs and disabilities a broad and balanced curriculum with regular access to all subjects and areas of learning. We believe that young people with SEND should not be routinely segregated from their tutors and peers but included as much as possible within their class.

We believe we provide high quality teaching that is differentiated and personalised and that meets the needs of young people. We have high ambitions, set challenging targets, and track the progress of all learners.

We will ensure that tutors and teaching assistants (TAs) are prepared for dealing with the challenges and complex difficulties posed by learners with SEND by providing structured training on a variety of SEND issues. We believe tutors are responsible for young people's learning and that teaching assistants will be used effectively to provide the necessary support for learners with SEND within the classroom.

We are aware that depending upon their age and understanding we must discuss with learners with SEND any decision that might affect them.

It is our intent to provide every learner with the best education possible. Our objective in setting out the college's SEND policy is to make everyone aware that we want all learners to benefit as fully as possible from the education provided within the college.

We cater for learners who experience difficulties in: -

- Communication and interaction
- Cognition and learning
- Social, emotional and mental health difficulties
- Sensory and/or physical needs

We strongly endorse both the Equality Act 2010 and the College Admissions Code of Practice by ensuring that all applications to this college from parents of learners who have SEND will be considered and treated fairly and in line with current guidance.

We are aware that current statistics clearly show that young people with SEND have a significantly high risk of being verbally abused or physically assaulted on either a daily or weekly basis by their peers as they appear to be an easy target.

We work hard to create and maintain a college environment of positivity where all learners are taught to embrace and value difference.

We recognise college personnel need to be made aware of what constitutes bullying, how to detect bullying behaviour and to have a greater knowledge of learners with SEND.

We have a duty to safeguard young people and families from violent extremism. We are aware that there are extremists' groups within our country who wish to radicalise vulnerable young people and to involve them in terrorism or in activity in support of terrorism. College personnel must be aware of the increased risk of online radicalisation, and alert to changes in learner's behaviour. Any concerns will be reported to the Designated Safeguarding Lead.

We are aware that under the 'Counter-Terrorism and Security Act 2015' we have the duty to have 'due regard to the need to prevent people from being drawn into terrorism'. This duty is known as the Prevent duty and we believe it is essential that college personnel are able to identify those who may be vulnerable to radicalisation or being influenced by extremist views, and then to know what to do when they are identified.

We provide a safe environment where we promote learners' welfare. Within this environment we work hard to build learners' resilience to radicalisation and extremism by promoting fundamental British values and for everyone to understand the risks associated with terrorism. We want learners to develop their knowledge and skills in order to challenge extremist views.

We wish to work closely with the Youth Participation Group and to hear their views and opinions as we acknowledge and support Article 12 of the United Nations Convention on

the Rights of the Child that learners should be encouraged to form and to express their views.

We as a college community have a commitment to promote equality. Therefore, an equality impact assessment has been undertaken and we believe this policy is in line with the Equality Act 2010.

We all have a responsibility to ensure equality permeates into all aspects of college life and that everyone is treated equally irrespective of age, disability, gender reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex and sexual orientation. We want everyone connected with this college to feel safe, secure, valued and of equal worth.

We acknowledge the findings of the Race Disparity Audit that clearly shows how people of different ethnicities are treated across the public services of health, education, employment and the criminal justice system.

The educational section of the audit that covers: differences by region; attainment and economic disadvantage; exclusions and abuse; and destinations, has a significant importance for the strategic planning of this college.

We believe it is essential that this policy clearly identifies and outlines the roles and responsibilities of all those involved in the procedures and arrangements that is connected with this policy.

Learners who are over the age of 18 may withdraw consent for us to contact parent/carers. If this happens Liberty College will inform the parent/carer that consent has been withdrawn by the young person.

Medical Conditions

We have a duty under the Children and Families Act 2014 to support learners with medical conditions. We are aware that individual EHCPs will state the type and level of support required to meet their medical needs.

Record Keeping

Partnerships

We believe that a close partnership with parents./carers will enable learners to progress. Parents/carers have a key role to play in the partnership between home and college as they have an exclusive overview of the provision needed for the young person.

Learners with SEND will benefit from the college's close working relationship with the numerous external support agencies, which offer advice and support.

We feel that the provision for SEND in this college will benefit from the close links we have with other colleges by the sharing of good practice and in making the transition between phases as smooth as possible for the learners.

Admissions

The admission of learners with EHCPs to specialist post-16 provisions (SPI) is a decision for the local authority (LA) who has statutory responsibility for arranging their provision. There are admission criteria that are applied in order to determine if a particular post-16 provision would be a suitable placement.

If suitable, the LA will name Liberty College in Section I of the EHCP after the Year 11 Annual Review. This will state the requirements of the young person before admission into our provision.

Liberty College aim to accept all named learners on to courses providing that the college can meet their needs.

When considering applications, Liberty College will always give the highest priority to meeting both the needs of the learner who has applied and to those already offered a place on a course. We will make every effort to appropriately match any learners to the most suitable and appropriate course and group or one to one provision. All applications will be dealt with promptly and efficiently.

Enquiries and tours can be made either by phone, e-mail, via the website, or in person. Contact details will be taken, and an invitation will be made to attend the next available open event.

The Local Authority must have in place 'arrangements with a view to avoiding or resolving disagreements between parents and certain colleges about the special educational provision made for their child.' (SEN Code of Practice)
